Emoji Puzzles

This is a free bonus chapter for my book, **Emoji Puzzles**.

After releasing the book, I realized I had overlooked including any Adam Sandler movies — a much regrettable oversight, considering his influence and inspiration on me during my '90s childhood.

This bonus chapter, **dedicated to my brother Eli**, features a collection of puzzles inspired by the humor and charm of Adam Sandler's films. My brother and I shared many laughs watching his movies, and I hope these puzzles capture some of that magic.

The puzzles were generated using **AI**. If you're interested in that kind of thing and want to try it yourself, the project is open-source and available on the book's website.

If you enjoy these puzzles, please check out the complete book **Emoji Puzzles** at **emojipuzzlebook.com**. It includes 100 puzzles based on popular movies, TV shows, and books.

Take care and happy decoding!

How to Play

---

1 Each page features 5 emojis. Your goal is to figure out which **Movie**, **TV Show**, or **Book** they represent.

2 At the top of the page are clues including 🎬, 📺, or 📚 to let you know the category.

3 The clues also include the **genre**, **sub-genre**, and **release year**.

4 Once you've made your guess, you can check the answer in the back of the book. Remember, no peeking! 😜

Uncut Gems

A charismatic New York City jeweler and gambling addict risks everything in pursuit of the ultimate win.

A gem, representing the rare Ethiopian black opal that Howard Ratner acquires

A basketball, signifying the NBA championship game that Howard bets on, involving one of his clients, Kevin Garnett

A stack of money, symbolizing Howard's gambling addiction and the massive debts he accrues throughout the movie

A running man, illustrating the constant race against time and pressure that Howard experiences due to his risky decisions

A gun, reflecting the deadly consequences and dangerous situations Howard faces as a result of his involvement with criminals

Billy Madison

A wealthy, immature man is forced to go back through grades 1-12 to inherit his father's hotel empire and prove himself worthy.

A beer, representing Billy's irresponsible lifestyle that prevents his father from trusting him to run the hotel

A penguin, the one Billy hallucinates, citing it's too hot for them to just be walking around here

A female teacher, representing Veronica Vaughn, who helps Billy throughout his journey

A clown, I bet you thought that he was dead, but when he fell over he just broke his leg and got a hemorrhage in his head

A trophy, symbolizing Billy's victory in the Academic Decathlon, proving his worthiness to inherit his father's hotel empire

The Cobbler

A cobbler discovers a magical stitching machine that allows him to step into the lives of his customers by wearing their shoes. As he experiences their lives, he learns the importance of his own.

A shoe, representing the cobbler's profession and the shoes he fixes

A hammer, symbolizing the tools the cobbler uses to repair shoes

A sparkle, indicating the magical nature of the stitching machine

A walking man, representing the main character stepping into the lives of his customers by wearing their shoes

Silhouettes of people, symbolizing the various lives and identities the cobbler experiences through wearing the shoes

Little Nicky

Nicky, the son of Satan, must stop his brothers from taking over Earth while also navigating life in New York City.

A devil face, representing Nicky, who is the son of Satan

A hand sign, symbolizing Nicky's love for rock music

A pineapple, referencing Hitlers fate in hell

The Statue of Liberty, indicating the movie's setting in New York City

An angel, representing the heavenly forces that help Nicky during his mission

You Don't Mess with the Zohan

An Israeli counter-terrorist soldier fakes his death to pursue his dream of becoming a hairstylist in New York City, where he discovers love and friendship, and ultimately faces his past.

The Israeli flag, representing Zohan's origin and background

A fist, symbolizing Zohan's fighting and counter-terrorist abilities

A city skyline, representing the movie's setting in New York City

A woman getting a haircut, indicating Zohan's new career path as a hairstylist and his predominantly female clientele

A soda, referencing Zohan's favorite drink, 'Fizzy Bubblech'

The Water Boy

Bobby Boucher, a socially awkward water boy for a college football team, discovers his hidden talent for tackling and becomes a star player.

A grandma, symbolizing the strong influence Bobby's overprotective momma has on him, as she tries to keep him from playing football

An alligator, as Bobby's momma claims are ornery because they got all those teeth and no toothbrush

A water droplet, highlighting Bobby's role as the water boy and his dedication to providing the best water to the team

A football, signifying Bobby joining the Mud Dogs and discovering his talent for tackling and becoming a star player

A graduation cap, representing Bobby's academic achievements, personal growth, and maturation throughout the movie, as he gains self-confidence and independence

Puzzle on page 8

The Wedding Singer

A heartbroken wedding singer, Robbie, forms an unexpected bond with an engaged waitress, Julia. As their friendship blossoms, they face challenges and discover what true love really means.

A broken heart, representing Robbie's heartbreak when Linda calls off their wedding

A microphone, symbolizing Robbie's profession as a wedding singer

A bride, representing Julia, the waitress Robbie meets and promises to sing at her wedding

An airplane, representing a crucial turning point in Robbie and Julia's relationship.

A male singer, depicting Billy Idol, who shows up to help out in the movie

Click

An overworked architect named Michael is given a universal remote from the eccentric scientist Morty, allowing him to control time. As he starts to use the remote to avoid challenges, Michael learns valuable lessons about life and family.

A family, representing Michael's family and the importance of family in the movie

A scientist, representing Morty, the eccentric stranger who gives Michael the remote

A spiral, representing the 'Beyond' section of Bed Bath & Beyond where Michael finds the remote

A fast-forward symbol, symbolizing the remote's ability to control time and Michael's attempts to skip life's challenges

A skull, representing the eventual confrontation with mortality and the consequences of using the remote

Grandma's Boy

Sandler's not on screen in this one, but this one in particular holds a place in my heart. A 35-year-old video game tester named Alex moves in with his grandmother and her two elderly roommates after being evicted from his apartment. He navigates work and personal challenges while living with them.
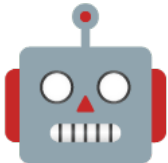

Grandma, Alex's grandmother, with whom he moves in after being evicted

Game controller, highlighting Alex's job as a video game tester at Brainasium

Racecar, representing the sports car bed that Alex's friend Jeff sleeps in, and his excitement about his roommates possibly getting him rims for Christmas

Robot, symbolizing J.P., a socially awkward game developer and Alex's work rival who aspires to be a robot and often imitates one

Lion, Alex could not live with his friend Dante because Dr. Shakalu was helping him get a Lion

Happy Gilmore

Happy Gilmore, an unsuccessful hockey player, discovers an uncanny talent for golf and uses his new skills to save his grandmother's house.

A hockey stick, representing Happy's aspiration to play hockey and his unique golf swing

An older man, symbolizing Chubbs Peterson, Happy's mentor and friend

A golfer, representing Happy's successful transition to professional golf

A screw or nail, representing Mr. Larson, who had a nail stuck in his head and supports Happy throughout the movie

A stack of money, symbolizing the prize money Happy needs to save his grandmother's house

50 First Dates

Set in Hawaii, Lucy, a woman with short-term memory loss, and Henry, a kind-hearted man, fall in love. Henry has to make Lucy fall in love with him every day anew.

A hibiscus flower, symbolizing the beautiful Hawaiian setting of the movie

A blond woman, representing Lucy, the main character with memory loss

A pancake, referencing Henry's attempt to pronounce 'pancake' when pretending he cannot read to get Lucy's attention

A boat, symbolizing Henry's schooner, the Sea Serpent, which he plans to sail to Alaska to study underwater life but faces a mishap at the beginning of the movie

A dolphin, illustrating Henry's job as a marine life veterinarian at Sea Life Park in Hawaii

Welcome to Emoji Puzzles!

👋 Hey there! I'm Adam Tal, a software engineer 👩🏽‍💻 based in New York City 🗽. I'm passionate about technology and its potential to improve our lives. This book is a labor of love 💕, born from my enthusiasm for pop culture 📺 and artificial intelligence 🤖.

I created this book 📚 to explore the power of large language models 🤯. I used OpenAI's GPT-4 to generate the puzzles, as well as the code that converted them into this book 📝. My goal was to create a fun, engaging, and accessible project that would appeal to a broad audience 🌍. I hope this book not only entertains 🤩 but also sparks curiosity 🤔 about the technology behind it and fosters connections with like-minded individuals interested in exploring AI's potential🤝.

If you'd like to learn more about the code used to create this book🔍, I've made it available as an open-source project 🌐 for anyone interested in delving deeper or using it for their own projects🤓. To access the code and/or connect with me, visit **github.com/AdmTal/emoji-puzzles**. I look forward to hearing your thoughts 💭, discussing the technology 🤖, and sharing ideas on how we can continue to push the boundaries of what AI can do 🚀.

Now, let's get started with the emoji decoding! 🕵️‍♀️
